📁 Portfolio | 🔗 LinkedIn | 🐙 GitHub | </> LeetCode

SKILLS SUMMARY

Languages JavaScript (ES6+), TypeScript, Python, SQL
Frontend React.js, Redux, Tailwind CSS, ShadCN, HTML5, CSS3, Context API, React Router, Bootstrap
Databases MySQL, MongoDB, PostgreSQL, SQLite
Dev Tools Git, GitHub, GitLab, NPM, Webpack, Babel, Postman, Jira, Claude Code, Cursor AI

EXPERIENCE

- FirstHive** Bengaluru, Karnataka
Software Engineer (Full-time) June 2025 - Present
 - Enterprise Analytics Dashboard (React + Flask):** Developed high-performance analytics dashboards handling 10000+ records with optimized filtering, aggregation, pagination, and sorting for real-time data insights.
 - Real-Time Systems & WebRTC Integration:** Implemented WebSocket-based real-time communication and integrated WebRTC-driven data retrieval for customer care and live interaction modules.
 - Production Feature Delivery:** Delivered 7+ production features used by enterprise users, ensuring reliable API handling and smooth system performance.
 - Frontend Optimization:** Improved frontend performance by reducing unnecessary re-renders using custom hooks and reusable component patterns.
 - RBAC Authentication System:** Developed a secure role-based authentication and access control system for multi-tenant applications.
 - Automated Journey Drop-off Intelligence:** Configured event tracking across 20+ drop-off stages, integrating with marketing automation platform for behavioral intelligence.
 - Event Tracking & Analytics System:** Built a real-time event tracking system to capture and process 1000+ user events daily for better journey and behavior analysis.
 - Technical Documentation for Event Configuration:** Authored clear technical documentation for event configuration and tracking workflows, enabling smooth adoption and consistent implementation across multiple product teams.
- Zeni.ai** Pune, Maharashtra
Quality Assurance Intern (Internship) May 2024 - August 2024
 - Quality Assurance:** Maintained and optimized test scripts to ensure smooth and reliable software releases.
 - Test Automation:** Automated software testing workflows using Python, reducing effort and boosting efficiency
- Skyroot Aerospace** Hyderabad, Telangana
SDE Intern (Internship) May 2024 - August 2024
 - Web Development:** Built and deployed a static website for SPACEFED, enhancing visibility and collaboration.
 - Engine Optimization:** Developed and implemented python script to enhance rocket motor engine performance.

PROJECTS

- LetsChat - Social media messaging app** Source Code | Live Link
Next.js, TypeScript, WebSocket, Next Auth, Tailwind CSS, ShadCN, Prisma, MongoDB
 - Developed a full-stack real-time messaging app with instant delivery, typing indicators, and room-based communication using Socket.io and Next.js
 - Implemented real-time chat functionality with Socket.io, including message broadcasting and efficient message fetching.
 - Developed secure RESTful APIs with NextAuth.js (JWT) authentication, supporting group chats, validated image uploads, optimistic UI updates, and geolocation-based user mapping
- Search Algorithm Analysis on Random Graph** Source Code | Report Link
Python, Graph Algorithms, DFS, BFS, GBFS, A*, Data Analysis
 - Implemented and compared DFS, BFS, GBFS, and A* algorithms on a randomly connected graph with 45 nodes to study pathfinding efficiency.
 - Analyzed execution time, RAM usage, and path length across multiple test cases to evaluate performance and optimality trade-offs.
 - Conducted detailed comparative analysis with tabular reporting, highlighting heuristic limitations, shortest path accuracy, and computational efficiency of each algorithm.

EDUCATION

- Shri Ramswaroop Memorial University** Lucknow, India
Bachelor of Technology - Computer Science; CGPA: 7.47 October 2022 - May 2026
Courses: Data Structures and Algorithms, Operating Systems, Artificial Intelligence, Machine Learning, Deep Learning, Computer Networks, Database Management Systems
